

Secure Track Solutions - Van & Fleet Security Checklist

- ☐ Keep vehicle keys secure and away from doors and windows
- ☐ Use a tested Faraday pouch or key box for keyless vehicles
- ☐ Check that vehicles are locked before leaving them unattended
- ☐ Park in well-lit, secure areas wherever possible
- ☐ Remove tools and valuable equipment from vehicles overnight where practical
- ☐ Consider additional physical security for high-value vans
- ☐ Fit an additional immobiliser for another layer of protection
- ☐ Install a tracker to support vehicle recovery
- ☐ Use CCTV to monitor yards, driveways and parking areas
- ☐ Review security regularly as your fleet grows or circumstances change

Immobilisers

An additional immobiliser provides another layer of protection beyond the vehicle's factory security. It is designed to prevent the vehicle from being driven away without the correct authorisation, helping businesses protect their vans, tools, and the assets inside them.

Trackers

A vehicle tracker can help businesses locate a vehicle if it is stolen. For fleet operators, tracking can also provide greater visibility of vehicles and support fleet management, depending on the system installed.

CCTV

CCTV can provide a visible deterrent around business premises, yards and parking areas while recording activity around your vehicles. If an incident occurs, recorded footage may provide valuable supporting evidence for the police, insurers, or your business.

Protect Your Fleet with STS

Your vehicles are more than just transport — they can carry tools, equipment, stock and valuable business assets, while downtime can directly affect your ability to operate. Secure Track Solutions can assess your individual vehicles, vans or entire fleet and recommend a layered security solution based on your requirements. From immobilisers and tracking systems to CCTV and additional vehicle security, STS can help you put the right protection in place.

Get in touch with Secure Track Solutions today and take the next step towards protecting your vehicles, your assets and your business.
